**Item 8.01. Other Events.**

On December 22, 2017, the Tax Cuts and Jobs Act (the “Tax Act”) was enacted. The Tax Act is one of the most comprehensive changes in the U.S. corporate income tax since 1986 and certain provisions are extremely complex in their application. The Tax Act revises the U.S. Corporate income tax by, among other things, lowering the corporate income tax rate from 35% to 21%, adopting a territorial income tax system, and imposing a toll charge on the unremitted earnings of foreign subsidiaries. We are currently evaluating the impact that the Tax Act will have on both our Consolidated Statements of Financial Condition and Consolidated Statements of Earnings. At this time, based on information currently available, we anticipate taking a charge of approximately \$170 million in the first quarter of 2018. Approximately two-thirds of this estimated charge relates to the non-cash write down of our deferred tax asset. This reflects the impact of a lower federal tax rate of 21% on the future deductibility of our deferred tax items. The remaining balance relates to a toll charge on the deemed repatriation of unremitted foreign earnings.

The ultimate impact of the Tax Act may differ from this estimate, possibly materially, due to changes in interpretations and assumptions, and guidance that may be issued and actions we may take in response to the Tax Act. We note that the Tax Act is highly complex and we continue to assess the impact that various provisions will have on our business.
